Overview

Background

WHYNOT requested that KREDICT perform an Extensive Smart Contract audit of their Smart Contract.

Project Dates

The following is the project schedule for this review and report:

August 09

→ Smart Contract Review Completed (Completed)

August 09

→ Delivery of Smart Contract Audit Report (Completed)

Review Team

The following KREDICT team member participated in this review:

→ Abhishek Mishra, Security Researcher, and Engineer

Coverage

Target Specification and Revision

For this audit, we performed research, investigation, and review of the smart contract of **WHYNOT**.

The following documentation repositories were considered in-scope for the review:

→ WHYNOT

Token Name WHYNOT

Symbol **YNOT**

Chain Binance Smart Chain

Contract Address 0xF12F9f6DA43D8f24468b1e983d78033c3AA95EDc

Supply 100,000,000,000

Decimal

Burn 0%

Proxy No

Code Visible Yes

Can Set Fees Safe

Can take Back Ownership Safe

ls Mintable Safe

Can Pause Transfers Safe

Can Blacklist Safe

Can Burn Yes

About KREDICT

We believe that people have a fundamental need for security and that the use of secure solutions enables every person to use the Internet and every other connected technology. We aim to provide security consulting services to help others make their solutions more resistant to unauthorized access to data & inadvertent manipulation of the system. We support teams from the design phase through the production to launch and surely after.

The KREDICT team has skills for reviewing code in C, C++, Python, Haskell, Rust, Node.js, Solidity, Go, and JavaScript for common security vulnerabilities & specific attack vectors. The team has reviewed cryptographic protocols and distributed system architecture implementations, including in cryptocurrency, blockchains, payments, and smart contracts. Additionally, the team can utilize various tools to scan code & networks and build custom tools as necessary.

Although we are a small team, we surely believe that we can have a momentous impact on the world by being translucent and open about the work we do.

For more information about our security consulting, please mail us at support@kredict.com
